

### **Junior Urban Designer**

Danielian Associates, an international award-winning global architecture and planning firm, is looking for a Junior Urban Designer to join their planning team in Irvine, CA. The firm embraces work-life balance with a nurturing work environment and collaborative team culture. As a Junior Urban Designer, you will work with the planning and architecture studios with following responsibilities:

### **Responsibilities**

- Work collaboratively on various planning projects under the supervision of a senior designer including urban infill site designs, and large-scale master plans.
- Research zoning codes, specific plans and design guidelines and provide detailed analysis to senior planners to aid in site design/ feasibility studies.
- Assist in preparation of conceptual and detailed site analysis/ feasibility studies.
- Prepare product research and analysis with a focus on density, size, type, and target market.
- Provide project coordination with clients, consultants, and governing agencies under the direction of senior staff.
- Assist with the preparation of various planning submittal documents for clients and governing agencies.
- Provide graphics support for various planning projects through all stages of the project.
- Maintain communication with senior staff throughout the design process.

### **Qualifications**

- Bachelor's in Urban Planning or Landscape Architecture
- Excellent time management skills and the ability to multi-task/manage a variety of projects under direction of senior staff.
- Excellent verbal and written communication, presentation, and documentation skills.
- Basic understanding of urban infill site and large-scale master planning principles.
- Basic knowledge of various residential product types such as single-family detached, townhomes, high-density multifamily, senior & assisted Living.
- Experience with the following software: AutoCAD, InDesign, and PhotoShop.
- Basic knowledge of Sketch-Up or other 3D rendering software is preferred.
- Proficient in Microsoft excel and word.
- Strong graphic skills, ability to communicate ideas and concepts through clear diagrams and data visualization.
- Creative and design-oriented personality.
- A true team player who will be excited to contribute to a great company culture.
- A desire to learn and grow in the architecture and planning industry.
- Please provide a Design portfolio with your resume to be considered for this position.

**If you are a positive person with a can-do attitude and love to work in a team environment, we want to talk to you!**
